Subject: Brag on your community

I just wanted to take a minute to brag on your community. I am sorry it has taken this long but I just made myself sit down and do this. I am the girls coach at Throckmorton and help with football on game nights. We came to your place a couple of weeks ago to play a football game. While we were there, I came in and out of the building (concession, locker room, gym area several times and I held the door for many people. Probably around 30 from Harrold from the time we drove up to the field until we left after the game. I held the door for what had to be elementary students all the way up to senior citizens and not one single person walked through that door without thanking me. Every single person that walked through that door was polite. That was truly a refreshing feeling.

I know not many times do we get thanked in our profession or told we do a good job but I just wanted to say it sure was a nice feeling that night to know someone appreciated something so small.

I hope y'all have a wonderful year.

Ryan Dollar
